## Retirement

### Minimum Retirement Age

This is age 55, unless you had a lower age agreed prior to 6 April 2006 due to a special occupation. There is no upper age limit for taking retirement savings.

### Ill Health

You may be able to take your retirement savings before age 55 where you are incapable of carrying out your occupation.

### Retirement Options

- Take some or all of your retirement savings as cash. A quarter of each amount taken is tax free and the rest taxed at your marginal rate.
- Transfer your retirement savings to another company. You must do this if you want to use your retirement savings for income drawdown, as we do not offer flexi-access drawdown. We send your whole fund to your chosen provider and they pay your tax free cash. It is possible to do a partial transfer from your Personal Pension Plan.
- Use your retirement savings to buy an annuity on the open market. We pay your tax free cash and send the rest to your chosen company to buy an annuity.

### Pension Commencement Lump Sum (PCLS)

You can usually take up to 25% of your retirement savings as a tax free cash lump sum, also known as PCLS.

### Protected Tax Free Cash

There is no protected cash available under this policy.

## Death Benefits

The rules of the scheme give Equitable Life discretion to choose who should receive the proceeds of the policy. You may nominate who you would like the benefits to be paid to, and we will take this into consideration when deciding who should receive the benefits.

If you die before retirement savings are taken, the fund is payable as either a lump sum or a pension. After age 75, death benefits become subject to tax. If benefits are paid direct to a beneficiary they will be taxed using their tax code. If paid to your estate or trustees, they will be taxed at 45%.

## With-profits Information

### IMPORTANT MESSAGE ABOUT YOUR RETIREMENT SAVING

We have announced what we believe is good news regarding the future value of your with-profits savings with Equitable. Information about the proposal can be found at [www.equitable.co.uk](http://www.equitable.co.uk)

You should think carefully before taking your savings. If you take your with-profits savings before we implement our proposals in 2019, you would lose the opportunity of having your fund value enhanced.

#### With-profits Values

With-profits policies have a guaranteed value which is the minimum amount payable on retirement, maturity, death or at a time specified in the policy. Your policy document sets down exactly when the guarantee applies. Most with-profits pension policies taken out before 1 July 1996 provide a guaranteed investment return of 3.5% pa. Your statement of value will confirm if this applies. This increases the guaranteed benefit over time.

If you take your investments at a time when the guarantee applies, we work out the amount we pay by looking at:

- your policy value, which depends on the type of policy you have, the amount of premiums you have paid and when you paid them, the investment returns on the fund, the costs and charges, and any other profits and losses from the Society's business; plus
- an amount which represents the share of capital that has been allocated to your policy and is payable when your policy is paid out.

We compare the total of these two parts with the guaranteed value and pay the larger figure.

If you take your investments at a time when the guarantee does not apply, a transfer value is payable. This is calculated as the total of the policy value and the share of capital described above. Depending on the Society's financial circumstances at the time of transfer, this value may be reduced by a financial adjustment. Currently, the financial adjustment is nil (0%). Transfer values can go down as well as up.

Further details on the with-profits fund can be found on the website in the Principles and Practices of Financial Management, and the website shows details of the asset mix. Our with-profits funds are managed by Black Rock Investment Management (UK) Ltd.

#### Switching Funds

There is no charge for switching funds. We reserve the right to deduct a charge in future without notice.

The with-profits fund available for switching will be the underlying value of the policy plus any capital distribution. This is reduced by the financial adjustment, currently nil, where the switch occurs before age 75.

Any guarantees will no longer apply to any funds switched out of the with-profits fund.

#### Contributions to With-profits

If with-profits contributions are not made in accordance with the policy terms and conditions, no further contributions to purchase with-profits benefits will be accepted. The main condition is that a contribution must be invested in the with-profits fund at least once in each policy year. The minimum contribution we can receive is £25 gross per month by direct debit or £250 gross per annum by lump sum.

#### Contribution Charges

No contribution charges apply.

There are no additional charges or penalties for ceasing, amending or restarting contributions.

#### Allocation Rate

This is 100%.

#### Annual Charges

Annual charges are currently 1% for expenses and 0.5% for costs of guarantees. These are taken into account when calculating the return allocated to policies each year.

Further details can be found on our website in "A guide to how we manage the with-profits fund".

## Unit-linked Information

### Unit-linked Values

When you take your investments, the amount will be worked out using unit prices applicable at that time and will be based on premiums paid up to that date. Unit prices can go down as well as up.

Unit-linked funds are managed by Aberdeen Standard Investments.

There is no charge for switching funds. We reserve the right to deduct a charge in future without notice.

Unit-linked funds cannot be switched into with-profits if future contributions to with-profits cannot be accepted (see 'Contributions to With-profits').
